Serenity, Inc.
Foster Care & Adoption

Serenity was born out of the hearts of three amazing women who were determined to develop a foster family agency that is truly dedicated to serving the best interests of children. Children come into foster care every hour of every day needing *consistent love and care*. From its inception, Serenity has been the agency that gives these vulnerable children a safe and nurturing place to begin their journey toward healing.

We meticulously and thoroughly vet all of our foster families and closely partner with them to provide the consistent love and care these children need. We are thankful for all our foster families who provide loving homes and all that children need while waiting to be reunited with their families.

Our Therapeutic Learning Center assists young children through prevention and early intervention services in order to reduce the damaging effects of neglect, abuse, prenatal drug exposure and various other traumas.

Serenity has been serving children and families and giving to communities across Southern California since 1991.

A heart at peace gives life to the body.

A wellspring of wisdom to share
A heart full of love and care
This child in her arms
Is sheltered from harm
Life is so sweet right here.

- P. Elaine Brown

“Our social worker is basically like family because we have known her for so long. She is like having another aunt. She is nice, understanding, and we can talk to her about ANYTHING.”

“I have always known he was only “mine” to love for a short while, and I chose to love him the best I could for however long that would be. Lots of lessons on trusting in Him...finding peace in that”

- Michelle Sayovitz
